

Punctureseal Case Study

Punctureseal

Benefits of Punctureseal

- Operates to -40c
- Takes 5 mins per tyre to install / minimal downtime
- Vehicles can operate to the maximum speed of the vehicle (subject to safety and local speed restrictions.)
- Protects the tyre from punctures
- Maintains pneumatic benefit of the tyre

How much per tyre

- Every tyre is a different size.
- You therefore need to use the tyre chart to work out how many squirts (Fl oz) per tyre is needed.
- Punctureseal provide a tyre chart guide that will explain how much product is required.
- We have quoted for typical CZ4 / X4 tyres
