

Punctureseal

Punctureseal news 1Q 2014

New resellers

Our distribution channels grow internationally. We now have coverage in Turkey, UAE, Ethiopia and Turkey. Visit www.punctureseal.com/resellers.html to learn more

Mobile apps

We are very pleased to be the first, and still only tyre sealant business to have launched mobile apps for the iPhone, Android and HTML 5. Search for Punctureseal on the App store or Google play, or visit m.punctureseal.com.

Turkey

We were delighted to visit Izmir in January 2014 to support our new reseller. 15 vehicles were treated over three days, with multiple customer visits completed.

Quickbooks online

Punctureseal has moved its invoicing to Quickbooks online. This allows invoices to be created and issued to customers over the web. Customers can also check that their payments have been received and account status.

Presta tyres

We have had a number of requests for assistance in treating bicycle tyres with Presta valves. We have sourced a small adapter for our pump to allow easy application of product to the tyre. Read our Blog at <http://punctureseal.com/blog> for more information.
