

Punctureseal

Punctureseal news 2Q 2015

New web sites

We are pleased to announce that we are running three web sites, each tailored for different devices. The same link www.punctureseal.com is used, but content will be formatted to your computer, tablets or smart phone screen size.

Jugs replace bottles

Following customer feedback we have retired our bottle range, and have released three sizes of jug. 900ml, 2.3L and 4.6L. Each jug comes with a pump, allowing dispensing under pressure, and a valve tool allowing direct pumping to the tyre. Visit www.punctureseal.com/jugs.html for more information.

Dosage / Tyre sizes

There are many ways that tyre sizes are listed, and converting them to metric in order to use our online dosage calculator was a painful process. We have now released a spreadsheet that will convert imperial, motorbike and bicycle tyre sizes to metric. This is available on the Resellers Dropbox folder. Alternatively, call Punctureseal and we will convert tyre sizes for you.

Mobility

We have done a lot of work with mobility vehicles, adding a Mobility page to our website. www.punctureseal.com/mobility-vehicle.html

Technical information

Don't forget our technical help page, the first place to look for technical support, documentation and other information. www.punctureseal.com/technical.html
