Dear Jenni

As per our numerous conversations I would like to provide you with my recommendation to any of your prospective customers.

You treated my Toyota with Punctureseal back in September 2004. My front tyres were new and the rear set had 12,000 miles on them. Only on your insistence in March 05 did I check the pressures and they were exactly as you had left them in September. My fuel consumption has also improved and with the mileage I cover that equates to rather a lot of fuel.

This week I had the vehicle MOT'd and have replaced the front set after 58,000 miles. Surprisingly the rear set are still legal after 70,000 miles!!

Prior to having Punctureseal installed I used to get on average 22,000 per set of fronts.

Thank you Jenni, you have successfully saved me over 2 full sets of tyres in 12 months.

I look forward to seeing you later this week for the re-application to the fronts.

Best regards

ED NASH
Regional Partner

PS : just checked the tyre pressures - after 9 months they are still bang on!!
